

Lagrange: A Decentralized Forex Exchange Platform

Lagrange will operate as a decentralized forex exchange platform with various entities planned to be established in different jurisdictions. Its structure, which will comprise a holding company, an operations company, a family fund, an on-off ramp company, a money transfer company, and a decentralized token, will help provide effective services and comply with different regulatory requirements.

About Lagrange's Holding and Operations Companies

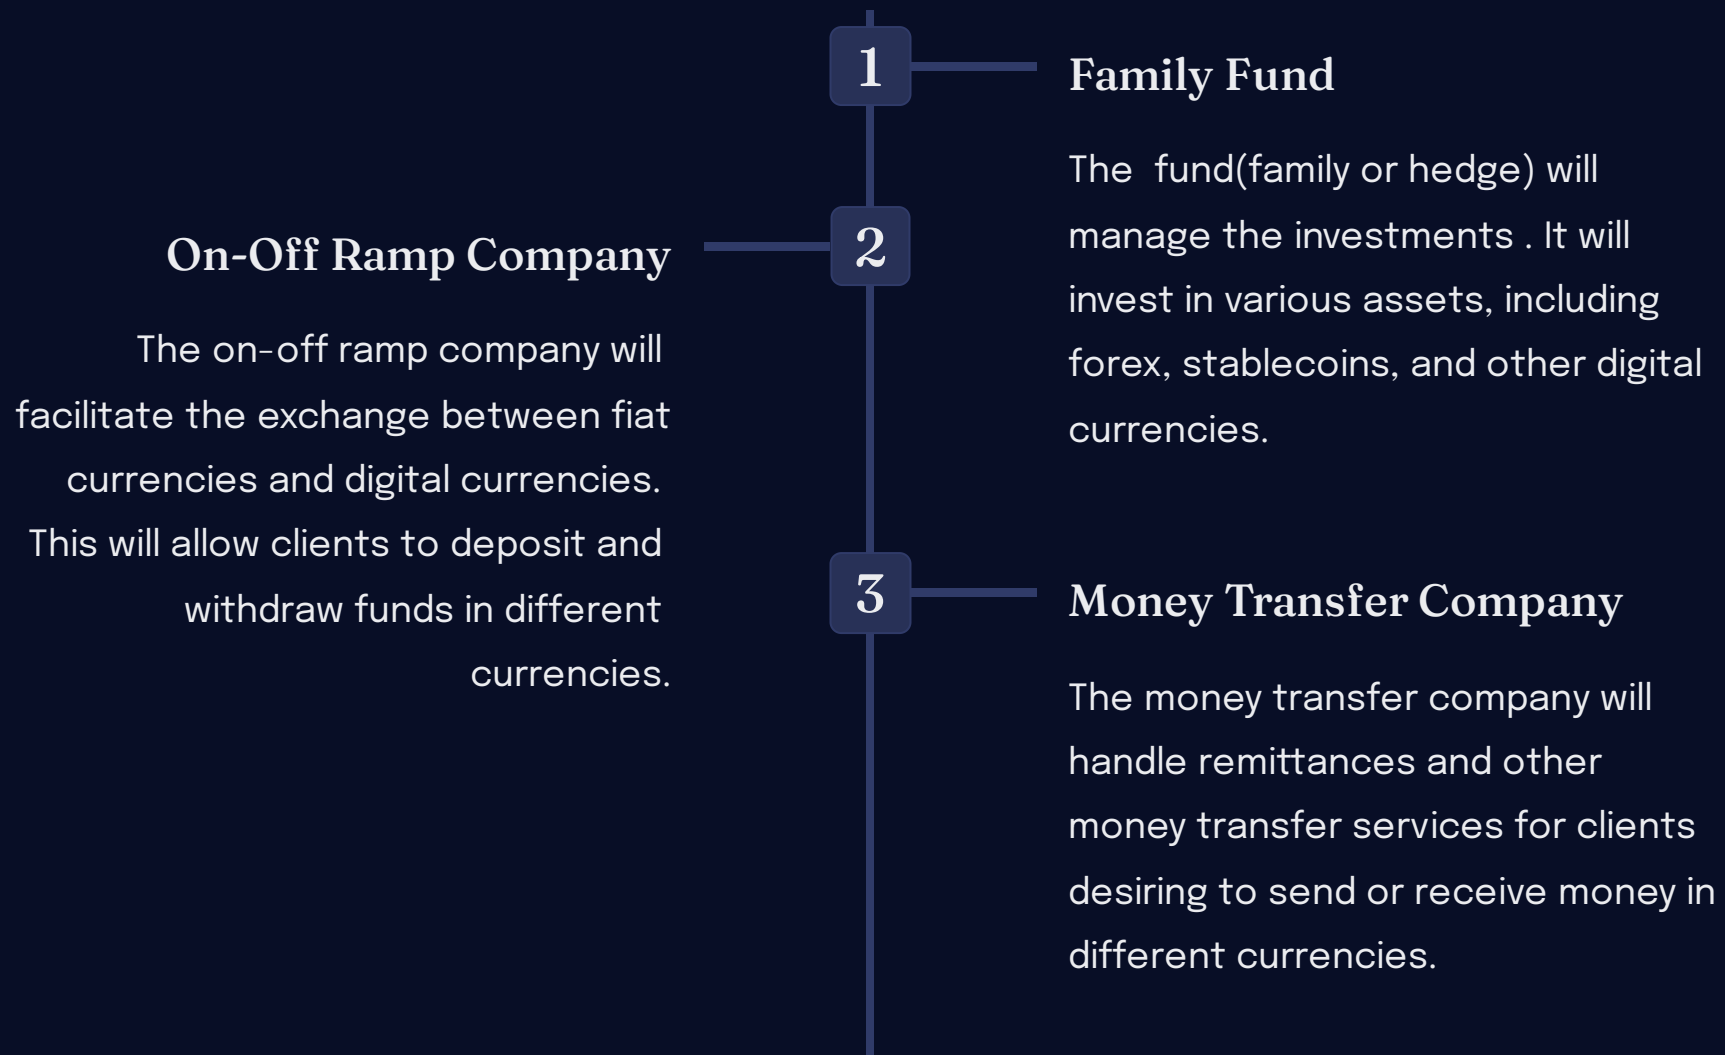

Holding Company

The parent company holds the controlling interest in the other entities. It sets strategic direction and monitors the activities of the group.

Operations Company

This entity is responsible for the day-to-day operations of Lagrange. It manages the trading platform, executes trades, and handles customer service.

The Role of Lagrange's Family Fund, On-Off Ramp Company, and Money Transfer Company

Lagrange's Decentralized Token

The decentralized token is a digital asset issued by Lagrange representing a share in the company. It can be traded on digital currency exchanges. Issuance and trading of the decentralized token comply with regulations of various jurisdictions. The company has established an entity in the Cayman Islands for token listing.

Legal and Regulatory Considerations

Entity	Regulatory Considerations
Holding Company	Corporate laws including financial reporting, corporate governance, and shareholder rights.
Operations Company	Financial regulations such as trading, risk management, and customer protection.
Family Fund	Investment regulations inclusive of portfolio management, risk disclosure, and investor protection.
On-Off Ramp Company	Financial regulations such as currency exchange, anti-money laundering, and know-your-customer procedures.
Money Transfer Company	Financial regulations such as remittances, anti-money laundering, and know-your-customer procedures.
Decentralized Token	Securities regulations such as investor disclosure, token issuance, and anti-market manipulation.

Lagrange's Advantage

Global Presence

Lagrange will operate globally, allowing clients to access trading, investment, and money transfer services worldwide.

Decentralized

Lagrange will operate as a decentralized platform, allowing users to execute transactions directly and securely.

Compliant

The company will comply with various regulations, allowing it to operate responsibly and sustainably while providing effective services to clients.
